## Paradise Comes to Manchester

That's right. Paradise Island Adventure Golf has come to Manchester, England.

After their success in Glasgow, the folks at Paradise Island have now built a new facility in the Trafford Center. As in Glasgow, Castle Golf has built this 36 hole golf experience and asked us to return to provide our touch to the project.

For our part, E2 has provided the following:

- Background sound effects and music system
- A thunder storm sequence with lightning
- Temple Face drop hole sound effects
- "Paradise Outpost" character voices
- Bridged huts character voices
- 19<sup>th</sup> hole player feedback
- Squirting elephant
- "Burning Alter" lighting and sound effects
- Integrated Show Control System

We were happy to be able to help Paradise Island with their new project and wish them continued success.
